Name: Teon	Attended? Yes/No
Name: Alam	Attended? Yes/No
Name: Petar	Attended? Yes/No

Project Progress:

Artem:

- What did you accomplish yesterday?

Answer:

"Thinking about project structure, classes and useful diagrams".

- What will you do today?

Answer:

"Reviewed the activity diagram, class diagram, Login/Registration logic. Shared suggestions regarding enhancing functionality, logic and performance of the program".

- What obstacles are impeding your progress?

Answer:

"No obstacles".

Charlie:

- What did you accomplish yesterday?

Answer:

"Thinking about project structure, classes and useful diagrams".

- What will you do today?

Answer:

"Reviewed the Menu that Peter made, gave some ideas about what needs to be improved. Reviewed activity diagram. Made suggestions regarding user interaction with the program. Remove routeAssigned variable from the Bus Class. Add busAssigned variable to Route class. Add departureTime variable to Bus class. Bus needs an array of times. Ticket class will have a start point, route reference, time. Take off expiry date from Ticket class".

- What obstacles are impeding your progress?

Answer: *"No obstacles".*

Teon:

- **What did you accomplish yesterday?**
